

government or by a private organization on behalf of such government. As the agency responsible for PREA implementation on behalf of the U.S. Department of Justice, the Bureau of Justice Assistance within the Office of Justice Programs is submitting this request to extend a currently approved collection.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The recordkeeping and reporting requirements established by the PREA standards are based on incidents of sexual abuse. An estimated 13,119 covered facilities nationwide are required to comply with the PREA standards. If all covered facilities were to fully comply with all of the PREA standards, the new burden hours associated with the staff time that would be required to collect and maintain the information and records required by the standards would be approximately 1.16 million in the first year of full compliance, or about 89 hours per facility.

6. *An estimate of the total public burden (in hours) associated with the collection:* The estimated public burden hours associated with this collection is 1.16 million in the first year of full compliance, or about 89 hours per facility.

Overview of This Information Collection

1. *Type of Information Collection:* Reinstatement, with change, of a previously approved collection for which approval has expired.

2. *Title of the Form/Collection:* 2022 Census of State and Local Law Enforcement Agencies (CSLLEA).

3. *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* The form number is CJ–38. The applicable component within the Department of Justice is the Bureau of Justice Statistics (BJS), in the Office of Justice Programs.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* Respondents will include all publicly funded state, county, and local law enforcement agencies in the United States that employ the equivalent of at least one full-time sworn officer with general arrest powers. Both general purpose agencies (i.e., any public agency with sworn officers whose patrol and enforcement responsibilities are primarily delimited by the boundaries of a municipal, county, or state government) and special purpose agencies (e.g., campus law enforcement, transportation, natural resources, etc.) meeting the above description will be asked to respond.

Abstract: BJS has conducted the CSLLEA regularly since 1992. The 2022 CSLLEA will be the eighth administration. Historically, the CSLLEA generates an enumeration of all publicly funded state, county, and local law enforcement agencies operating in the United States. The CSLLEA provides complete personnel counts and an overview of the functions performed for approximately 20,000 law enforcement agencies operating nationally. The survey asks about the level of government that operates the agency; oversight of any agency sub-components; total operating budget; full-time and part-time personnel counts for sworn, limited sworn, and non-sworn employees; sex of full-time sworn, limited sworn, and non-sworn personnel; race and Hispanic origin of full-time sworn officers; and the functions the agency performs on a regular or primary basis. Upon completion, the 2022 CSLLEA will serve as the sampling frame for future law enforcement surveys administered by BJS.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* BJS estimates a maximum of 20,000 state, county, and local law enforcement agencies with a respondent burden of about 32 minutes per agency to complete the survey form and about 15 minutes per agency of follow-up time. A random sample of 1,000 agencies will be selected to receive a pre-notification letter to inform the agency head of the upcoming survey and provide an opportunity to update the agency’s contact information, which is estimated to add 2 minutes per sampled agency.

6. *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 15,700 total burden hours associated with this information collection.

If additional information is required contact: Robert Houser, Assistant Director, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE, 3E.405A, Washington, DC 20530.

Overview of This Information Collection

1. *Type of Information Collection:* Reinstatement without change of a previously approved collection.

2. *The Title of the Form/Collection:* National Motor Vehicle Title Information System (NMVTIS).

3. *The agency form number:* There is no form number associated with this information collection. Bureau of Justice Assistance, Office of Justice Programs, United States Department of Justice.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* Auto recyclers, junk yards and salvage yards are required to report information into NMVTIS. The Anti-Car Theft Act, defines junk and salvage yards “as individuals or entities engaged in the business of acquiring or owning junk or salvage automobiles for resale in their entirety or as spare parts or for rebuilding, restoration, or crushing.” Included in this definition are scrap-vehicle shredders and scrap-metal processors, as well as “pull- or pick-apart yards,” salvage pools, salvage auctions, and other types of auctions, businesses, and individuals that handle salvage vehicles (including vehicles declared a “total loss”).

Abstract: Reporting information on junk and salvage vehicles to the National Motor Vehicle Title Information System (NMVTIS)—supported by the U.S. Department of Justice (DOJ)—is required by federal law. Under federal law, junk and salvage yards must report certain information to NMVTIS on a monthly basis. This legal requirement has been in place since March 2009, following the promulgation of regulations (28 CFR part 25) to implement the junk- and salvage-yard reporting provisions of the Anti-Car Theft Act (codified at 49 U.S.C. 30501–30505). Accordingly, a junk or salvage yard within the United States must, on a monthly basis, provide an inventory to NMVTIS of the junk or salvage automobiles that it obtained (in whole or in part) in the prior month. 28 CFR 25.56(a).

An NMVTIS Reporting Entity includes any individual or entity that meets the federal definition, found in the NMVTIS regulations at 28 CFR 25.52, for a “junk yard” or “salvage yard.” According to those regulations, a junk yard is defined as “an individual or entity engaged in the business of acquiring or owning junk automobiles for—(1) Resale in their entirety or as spare parts; or (2) Rebuilding, restoration, or crushing.” The regulations define a salvage yard as “an individual or entity engaged in the business of acquiring or owning salvage automobiles for—(1) Resale in their entirety or as spare parts; or (2) Rebuilding, restoration, or crushing.” These definitions include vehicle remarketers and vehicle recyclers, including scrap vehicle shredders and scrap metal processors as well as “pull- or pick-apart yards,” salvage pools, salvage auctions, used automobile dealers, and other types of auctions handling salvage or junk vehicles (including vehicles declared by any insurance company to be a “total loss” regardless of any damage assessment). Businesses that operate on behalf of these entities or individual domestic or international salvage vehicle buyers, sometimes known as “brokers” may also meet these regulatory definitions of salvage and junk yards. It is important to note that industries not specifically listed in the junk yard or salvage yard definition may still meet one of the definitions and, therefore, be subject to the NMVTIS reporting requirements.

An individual or entity meeting the junk yard or salvage yard definition is subject to the NMVTIS reporting requirements if that individual or entity handles 5 or more junk or salvage motor vehicles per year and is engaged in the business of acquiring or owning a junk automobile or a salvage automobile for—“(1) Resale in their entirety or as spare parts; or (2) Rebuilding, restoration, or crushing.” Reporting entities can determine whether a vehicle is junk or salvage by referring to the definitions provided in the NMVTIS regulations at 28 CFR 25.52. An NMVTIS Reporting Entity is required to report specific information to NMVTIS within one month of receiving such a vehicle, and failure to report may result in assessment of a civil penalty of \$1,000 per violation.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* There are 50,383 in JSI (meaning entities issued a reporting ID number), of which 21,612 have submitted at least one report. The estimate for the average amount of time
